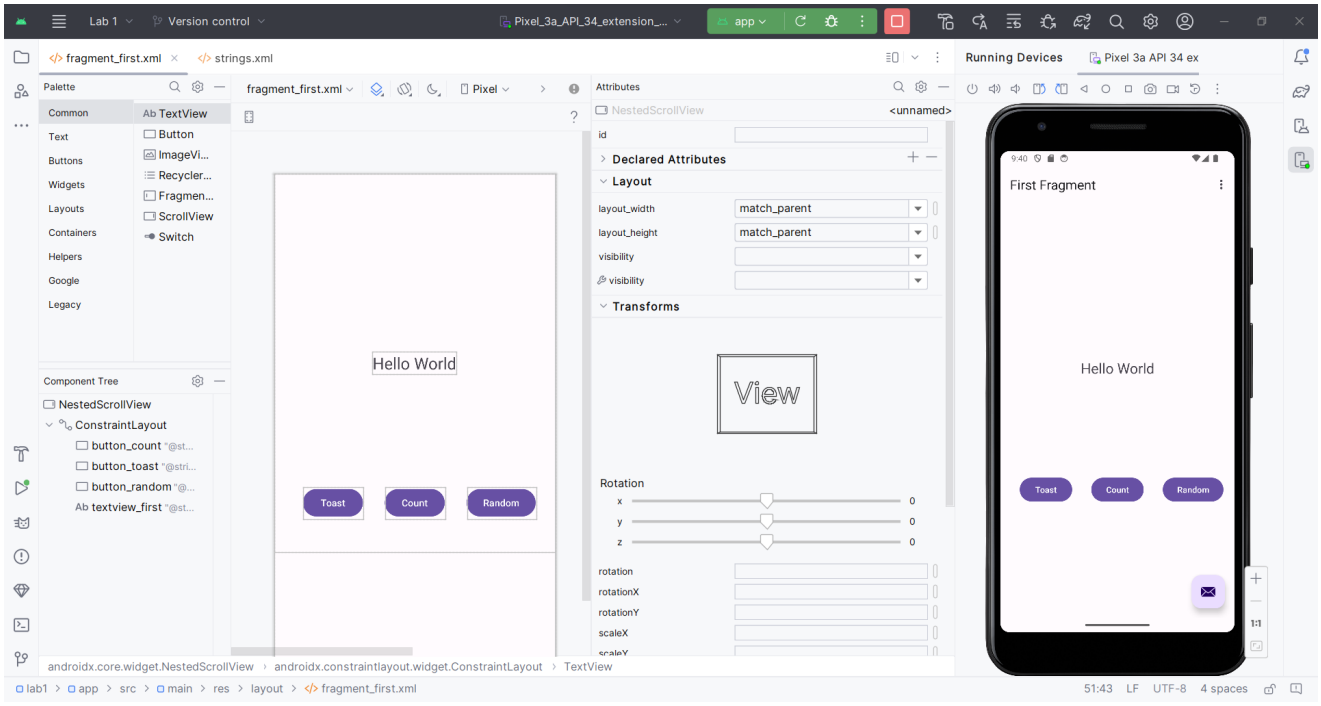
CSM3123 Lab 1

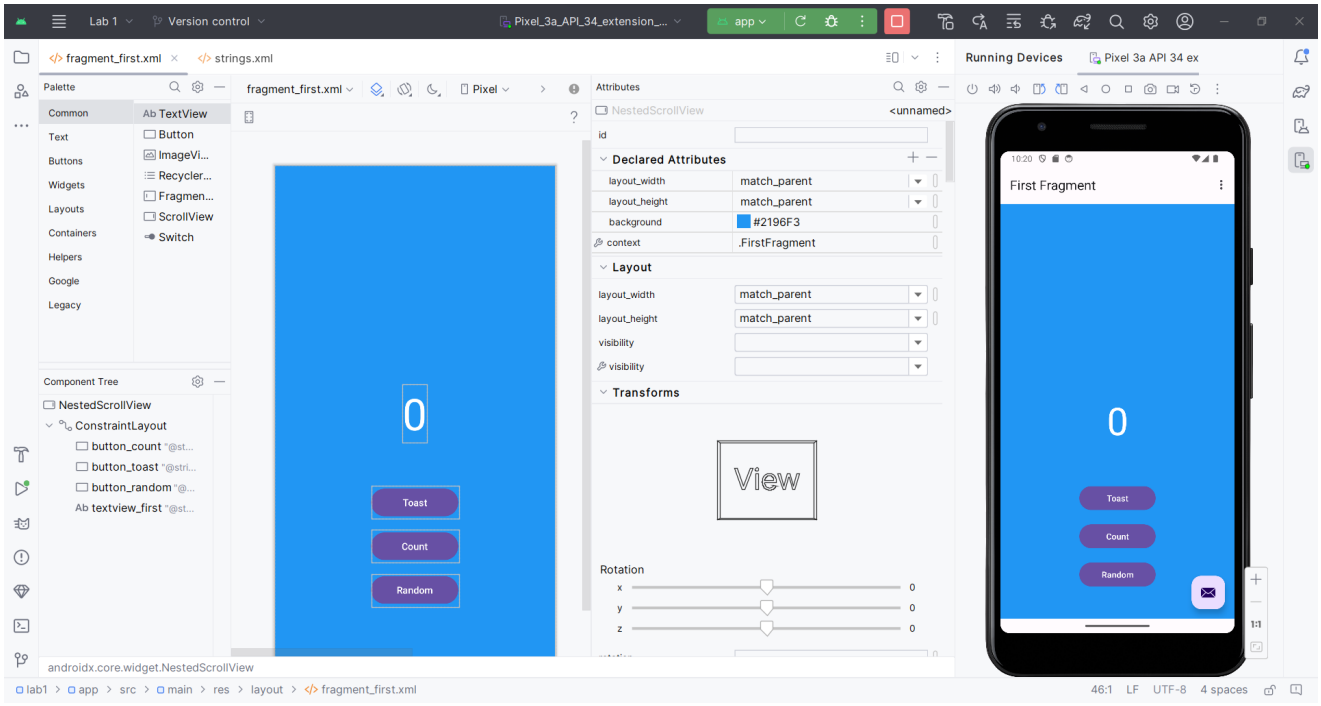
Gary Lim S62079

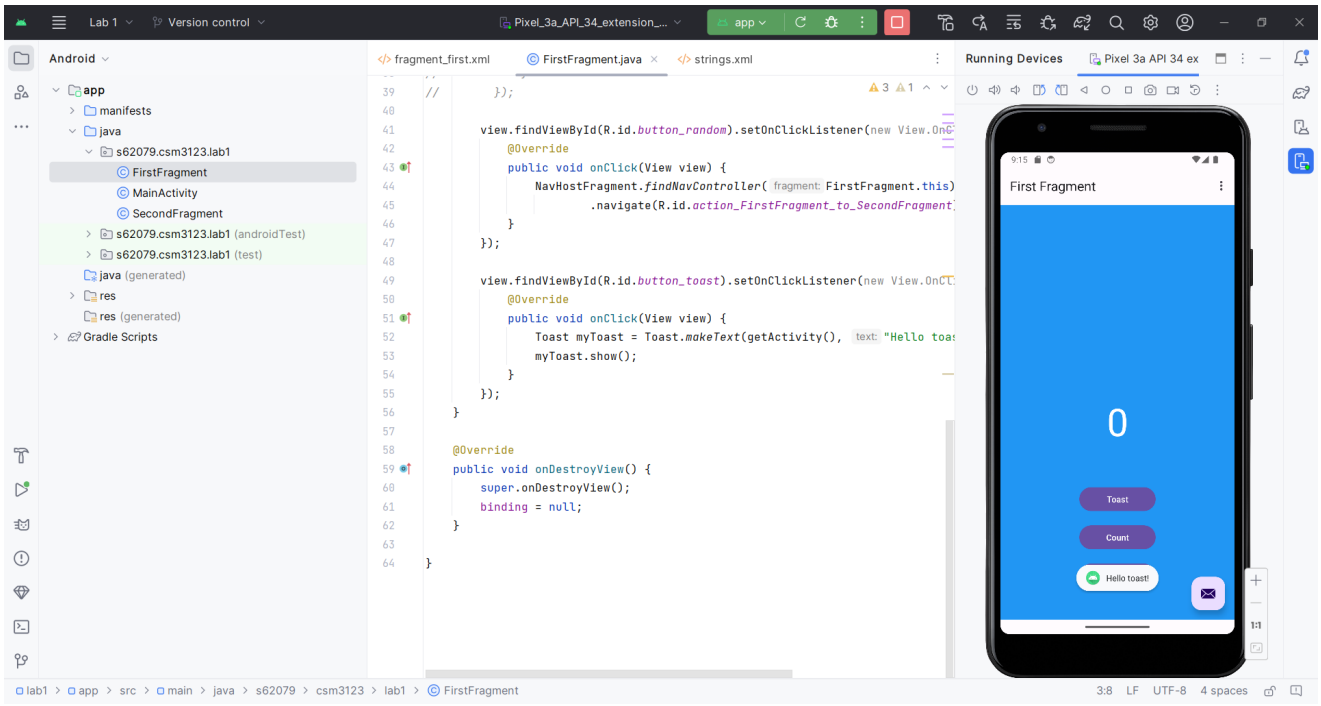
1. Setup your GitHub

https://github.com/s62079/csm3123

2. Create your First Android App







Lab 1
Version control
Pixel_3a_API_34_extension_...
app
Android
app
manifests
java
s62079.csm3123.lab1
FirstFragment
MainActivity
SecondFragment
s62079.csm3123.lab1 (androidTest)
s62079.csm3123.lab1 (test)
java (generated)
res
res (generated)
Gradle Scripts
fragment_first.xml
FirstFragment.java
strings.xml
Running Devices
Pixel 3a API 34 ex
First Fragment
0
Toast
Count
Hello toast!
lab1 > app > src > main > java > s62079 > csm3123 > lab1 > FirstFragment
3:8 LF UTF-8 4 spaces

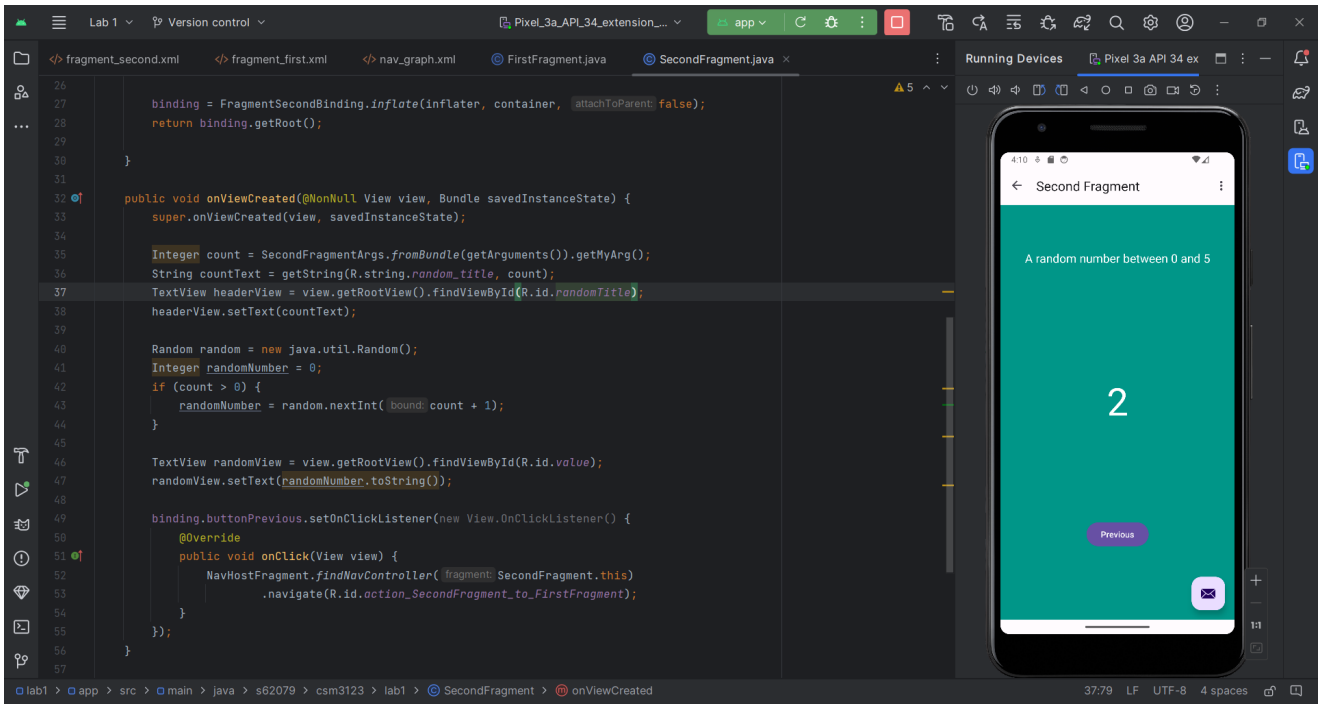
Random
lab1 > app > src > main > java > s62079 > csm3123 > lab1 > FirstFragment
76:1 LF UTF-8 4 spaces



3. Define the following keywords according to Android Studio Development Environment

1. Views - Preview of app layout
2. Toast - Timed pop-up text
3. Fragment - Page of the app
4. Intent - Permission of the app
5. Resources - Data and files bundled with the app
6. Layout - Arrangements of the app components
